**SEASON 1918-1919**

**WHOLESALE PRICE LIST OF**

**NURSERY STOCK**

**GROWN SPECIALLY FOR EXPORTATION**

In the Nurseries of

**CHARLES DETRICHE, Senior**

**ANGERS (France)**

**FRUIT TREES and ROSE STOCKS**

Forest and Shade Trees Seedlings

Ornamental Shrubs, Conifers, etc.

The varieties here listed comprise only a part of the assortment grown by Mr. Detriche. For prices on other varieties apply to Jackson & Perkins Co.

**Jackson & Perkins Co.**

**NEWARK, New York**

Sole Representatives for United States and Canada

Cable Addresses :

CHARLES DETRICHE, ANGERS

-:-

PERKINS, NEWARK, NEW-YORK

SEPTEMBER 11th, 1918

**ALL PREVIOUS LISTS ARE HEREBY CANCELLED**

It is impossible to give most sizes of the nursery stocks offered herein as the seedlings are still growing at the time of printing this catalogue.

**TERMS AND CONDITIONS OF SALE**

All orders are accepted by Mr. Detriche subject to being unsold, to shortage or failure of crop and other causes beyond control.

**All shipments travel at risk and cost of purchaser.**

Quotations do not include cost of boxes, freight, duties or any other expenses of importing, all of these are to be borne by the purchaser.

Boxes of 230 X 75 X 75 c-m are charged \$9.00 to \$10.00 each, others proportionally to size used.

No complaint will be entertained unless made immediately after receipt of goods.

**Responsibility.**—After goods are placed on board cars here, I deline responsibility for delay or any injury caused in transit by the transportation companies.

Deliveries are made from the first part of December to the end of February; we commence as soon as the stocks are ripe enough for digging and packing.—Orders for spring booked under winter reserves, in case of shortage of crop.

Light grade of stocks cannot be delivered much before end of December, a small delay is to be expected in the shipment of such orders.

**Payments:** All accounts are due net on June 1st, next to delivery.

Checks or drafts must be made out in dollars on New York.

**Annual interest of 6 per cent. charged on overdue accounts.**

3 per cent. discount is allowed for payments in advance or made December or January, on cost of stock only, packing charges must be paid net.

Cash with order or satisfactory references are required from unknown customers, in case of C. O. D. shipment, 3-4 of the amount of order required in advance; balance, payable on delivery.

**Important**—The labelling of the stock is made very carefully; however, in case of error, I will agree to replace free or refund the amount paid me for any stock not true to name but am not liable for other damage, provided the error is mentioned as soon as it is visible, not later than the year of the planting.

**Expenses of Importing.**—Messrs. Jackson & Perkins Co. are usually able to save customers considerable on the expenses of importing.

Several orders, making sufficient weight to bill as a carload, are combined and shipped under one bill of lading and under one consular invoice to secure the lowest possible rates. In making entry and reforwarding, expenses are kept down to a minimum. Entries are made under Jackson & Perkins Company's permit Number 1518.

**Insurance.**—Of course shipments are always covered by marine insurance. War Risk Insurance is applied also on account of uncertain and unusual shipping conditions arising from the European War.

**The varieties here listed comprise only a part of the assortment grown by Mr. Detriche. For prices on other varieties apply to Jackson & Perkins Co.**

**CHARLES DETRICHE, Snr., Angers, France****JACKSON & PERKINS CO., Agents, Newark, New York**

All rates are quoted in United States currency in this list.

250 of a kind supplied at 1,000 rate; 2,500 at 10,000 rate; 25,000 at 100,000 rate.

The caliper or thickness of the stocks at the collar is given in millimeters, 25 m/m equal one inch.

NOTE.—According to early estimates, Mr. Detriche is already sold out of some of the grades of fruit tree and rose stocks listed below, but the prices are left in the catalogue on the chance that the quantities available will over-run early estimates—which are always conservative ones—or that additional supplies may be procured. Orders are received by us subject to Mr. Detriche's confirmation.

JACKSON &amp; PERKINS CO., American Agents.
